Introduction

The **McHale FUSION 3 PLUS** which you have purchased has been developed through years of constant research and development. Given proper care and attention the **FUSION 3 PLUS** will give years of reliable and dependable performance. However it is important that the operators manual is read and fully understood to achieve this, **before** the machine is operated. As part of this philosophy it is vital to use only **genuine McHale** replacement parts, as these are manufactured to the same high standard as the original machine. These may be obtained through your **McHale** dealer.

If any part of this manual is not fully understood, please contact your **McHale** dealer who will be able to answer any questions or queries that you might have. It is important to quote the machine serial number when requiring spare parts or technical assistance. Space is provided below to record the machine details:

Serial number:	
Year of manufacture:	
Date of delivery:	

If you require further copies of this spare parts manual please
quote part number CLT00546

Note: Parts described as left and right are done so according to the direction that the machine normally travels in.

Note: Due to a policy of continuous product development and improvement *McHale Engineering* reserve the right to alter machine specifications without prior notice.

This diagram illustrates the assembly of a mechanical component, likely a pump or motor, with 25 numbered parts. The main assembly is shown in an exploded view, revealing the internal structure and the sequence of components. The parts include a long cylindrical housing (1), various seals and O-rings (2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25), and a gear train. A detailed inset shows the gear train with 18 numbered gears, including a large gear (18) and a small gear (19). A small arrow in the bottom left points to the right.

This technical drawing shows an exploded view of a mechanical assembly. The main assembly consists of a long cylindrical component (1) with a series of longitudinal grooves. To its left, a series of components are shown in an exploded view, including a large circular flange (11), a smaller flange (22), a ring (17), a small ring (5), and a cap (13). To the right of the main component, another series of components are shown in an exploded view, including a small ring (16), a large circular flange (21), a small ring (19), a small ring (24), a small ring (18), a small ring (4), a small ring (12), a small ring (23), a small ring (6), a small ring (7), a small ring (25), a small ring (14), a small ring (9), a small ring (8), a large gear (20), a small ring (3), a small ring (15), and a small ring (10). A detailed inset in the top right corner shows a close-up of the gear assembly, with a central gear (16) and a series of smaller gears (1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 17, 18) arranged in a circular pattern. The inset also shows a chain drive mechanism with a sprocket (1) and a chain (2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18). The main assembly is shown in a perspective view, and the exploded view components are shown in a top-down view. A large arrow in the bottom left corner points towards the bottom right.

Hydraulic layout Fusion 3 Plus [Up to Serial No 659743] (835)

Notes on CVA00364 (MAIN CONTROL VALVE)

1. Port 'A' is nearest solenoid
2. Lever pressed down = Oil out port 'B'

Section Operation:

- Section 1: Handle Down = C&H Opens Full
- Section 2: Handle Down = Tip Up
- Section 3: Handle Down = Fwd. Wrapping
- Section 4: Handle Down = Knives Down
- Section 5: Handle Down = Gathering Arms Oper
- Section 6: Handle Down = Bale Door Open
