Introduction

The **McHale V640** which you have purchased has been developed through years of constant research and development. Given proper care and attention the **V640** will give years of reliable and dependable performance. However it is important that the operators manual is read and fully understood to achieve this, **before** the machine is operated. As part of this philosophy it is vital to use only **genuine McHale** replacement parts, as these are manufactured to the same high standard as the original machine. These may be obtained through your **McHale** dealer.

If any part of this manual is not fully understood, please contact your **McHale** dealer who will be able to answer any questions or queries that you might have. It is important to quote the machine serial number when requiring spare parts or technical assistance. Space is provided below to record the machine details:

Serial number:	
Year of manufacture:	
Date of delivery:	

If you require further copies of this spare parts manual please
quote part number CLT01042

Note: Parts described as left and right are done so according to the direction that the machine normally travels in.

Note: Due to a policy of continuous product development and improvement *McHale Engineering* reserve the right to alter machine specifications without prior notice.

This technical diagram illustrates the exploded view of a mechanical assembly, likely a linear actuator or a similar device. The components are numbered 1 through 22. The main assembly consists of a central cylindrical body (1) with a long internal rod (5). The rod is connected to a piston (6) and a rod end (7). The rod end is attached to a bracket (16) which is mounted on a curved arm (3). The bracket (16) is also connected to a chain (19) and a spring (21). The chain (19) is connected to a bracket (14) which is mounted on a curved arm (4). The spring (21) is connected to a bracket (15) which is mounted on a curved arm (17). The diagram shows the assembly in a disassembled state, with dashed lines indicating the alignment of the parts. A large arrow points to the right, indicating the direction of assembly.
